

# Microsoft Teams Q&A

**Q: What is Microsoft Teams?**

- Microsoft Teams is a new chat-based workspace for Office 365 – the new hub for teamwork. It brings together people, conversations, content, and the tools teams need to collaborate. Different teams have different needs, and Office 365 welcomes them all.

**Q: What are you announcing at the general availability of Microsoft Teams?**

- Microsoft Teams available to Office 365 customers in 181 markets and 19 languages
- Since November 2, more than 50,000 organizations have used Teams including Accenture, Alaska Airlines, Expedia, JB Hunt, J Walter Thompson, Hendriks Motor Sports, Trek Bicycles and Three Co UK.
- Within the most active organizations, the number of people using Microsoft Teams is growing 30% a month and messaging usage is doubling every 2 months
- We've been getting great feedback from customers, and have continued to ship new features in the experience. In fact, we've introduced more than 100 new features since the start of preview.

**Q: Which customers are using Microsoft Teams?**

- Since November 2, more than 50,000 organizations have used Teams including Accenture, Alaska Airlines, Expedia, JB Hunt, J Walter Thompson, Hendriks Motor Sports, Trek Bicycles and Three Co UK.
